

Zero-Waste Bakery Sustainability Project

Problem

Small bakeries often struggle with food waste, unsold inventory, and sustainability tracking.

Opportunity

Technology and simple analytics tools can help bakeries reduce waste and improve sustainability.

Solution – CrumbWise

A lightweight bakery sustainability app that tracks unsold items, estimates waste impact, and encourages smarter production planning.

Features

- Waste tracking dashboard
- Demand forecasting ideas
- Sustainability reporting
- Packaging improvement concepts
- Future AI enhancements

Impact

- Reduced food waste
- Lower operational costs
- Increased sustainability awareness
- Better resource management

Future Vision

Expand CrumbWise into a broader sustainability platform for cafés, bakeries, and small food businesses.
